

## **Charlies Foundation for Research – SCGH - Containers for Change**

### **About Charlies Foundation for Research**

Charlies Foundation for Research is the primary fundraising body dedicated to supporting life-saving research and special projects at Sir Charles Gairdner and Osborne Park Hospitals.

Our work funds initiatives that improve patient care, advance medical research, and enhance hospital environments.

By participating in Containers for Change (C4C), your department or ward can contribute to both environmental sustainability and critical research and project funding within the hospitals.

### **Get Started with Containers for Change**

To participate in Containers for Change (C4C) and receive a 240L labelled bin or CFC bag, please complete the attached registration form and email it to [fundraising@charliesfoundation.org.au](mailto:fundraising@charliesfoundation.org.au).

You will be contacted regarding the outcome of your application and any next steps.

Upon approval, Charlies Foundation for Research will supply your department or ward with a clean, labelled C4C bin/bag.

### **C4C Representative Responsibilities**

Ensure the bin/bag is kept secure and clean and is left in an appropriate and safe area  
Making sure signage is always visible to deter contamination  
Please note: if contamination is observed in the bin, there is a possibility that your department or ward may be unable to continue participating in the program.

Once bins are full, please have a staff member take the bin to the outside area north of YY Block, accessed via Verdun Street and Kondil Lane.

Note: To unlock the bin exchange area, prior call the SCGH Stores Team on (08) 6457 2175, Monday–Friday, 7am–4pm, to access the area for bin movements. Please take an empty and clean bin with you.

Bins will currently be emptied weekly and CFFR will monitor and change this process if and when necessary. Your team will be updated on recycling and donation figures during the year.
